

OSHA and Infection Control Made Easy for Medical Facilities

Presenter: Karson Carpenter, DDS, President Compliance Training Partners-HPTC

Course Description

This course has a target audience of physicians, PA's, nurses and all members of the medical team. The course is designed to educate all participants on the annual training requirements for OSHA compliance in medical facilities. Topics include hazard communication, bloodborne pathogens, electrical safety, ionizing radiation, fire safety, means of egress, recordkeeping and OSHA inspection. In addition, the course covers Centers for Disease Control and Prevention guidelines for infection control in medical facilities.

Objectives

- Fulfill OSHA annual training requirements
- Demonstrate skills in infection control that meet or exceed CDC guidelines
- Recognize and apply hazard communication/chemical safety requirements in the workplace
- Describe electrical safety and ionizing radiation safety requirements in the workplace
- Understand fire safety and means of egress requirements in the workplace
- Demonstrate OSHA recordkeeping requirements

Duration: 4 Hours
